Its a solid couch co-op, but it is only couch co-op. So if you don't have friends to play with locally you won't get anything out of this. If your a fan of TeamFourStar and have the players buy it its good fun.. I bought it because of Square Enix. They cannot make or produce bad games right? Well.. this one is not their best ones. Story is probably good but swap four to form somewhat combos is somewhat a tricky thing. I personally am no fan of these rotate/twist four puzzle games and I lost my intrest on it entirely quite soon, so I cannot recommend it to anyone who's not fan of the type of puzzle games.. Do not buy this. You can get it from most app stores for free. They do nothing to improve or expand upon the game from the mobile version.

Here is some PC gameplay if you are interested.

[.I'm surprised no one has written a review yet at the time of writing this \(May 21, 2019\). I have been pleasantly surprised by a lot of games in my time and this one is \(thankfully\) no exception. I went into it expecting a simple puzzle game and what I got in return was something much deeper than I imagined. The puzzles require thought, patience, planning, and even understanding of depth in a 3D space.](#)

[I would have liked if they had added the ability to rotate the puzzle but I think that would probably defeat the purpose they were going for so I'm not sure if I can really add that as a con but if I can, it's something I would personally change. Not a deal breaker though.](#)

[And that's it really. The pros are: it's a great little puzzle game that challenges you in unique and clever ways. The cons are: it could add a rotate option.](#)

[I've uploaded a video to Youtube if you want to see the game in action and decide for yourselves. If you like puzzle games, I have a feeling you're going to want to play this one though. I've really enjoyed my time with it.](#)

<https://www.youtube.com/watch?v=fG6vEf6DazE>. Overall, this was actually a somewhat thrilling experience. The way you get new endings is a bit confusing, but most of them are pretty interesting and the music is on point. Thanks for sharing this with us.. This game is great if you have a few hours to spare but can get boring in the long run. Get this game on a steam sale if you are interested. This game is a dungeon crawler with some special features that make the game worth it on a sale. [I just love this. It's a faithful reproduction of Crystal Quest \(Crystal Raider for those who only had the shareware version\) which I used to play on a black-and-white Macintosh Classic when I was a kid. Maybe it's because it's such a nostalgia trip for me, but I find it a horrifyingly addictive experience.](#)

[Guide your inertia-powered spherical spaceship around and collect all the crystals, and if you manage to avoid all manner of crazy monsters you might be lucky enough to get out of the opening at the bottom of the screen. If you're REALLY lucky you might get a huge crystal and loads of points and feel like an 11-year-old again\\* \(\\*last part probably exclusive to me\).](#)

['Hash Monsters', 'Sandbags' and the 'Blim Thingies' - might not be their real names - will spawn from both ends to try to stop you, and stop you they will unless you use a lot of bombs to clear them out.](#)

[It gets very difficult, very quickly in a very entertaining way - you'll be yelling at the screen with a smile on your face. For this price you cannot argue with its arcade madness.. Devilish, Pinball Quest, Breakout, RPG elements.... Well not really RPG but the story line... It's well written and gives you a giggle! The developer has a good sense of humor in the story while delivering a quality game where you guide the ball and hit certain items to progress in the game. It's such a good game that I think they should pursue a license to operate this game as a stand alone machine, possibly Bar Arcades? It would earn lots of quarters.](#)

[You can see the quality and love they put in here and you would appreciate its simplicity yet deep arcade like gameplay.. good laugh for like 5mins, recommended if you want autism and fly a dragon in chernobyl. Horrific translation, terrible coding and completely random boss encounters are the least of your problems in this wanna-be. It's cheap, and that's literally all it has going for it. In an hour and a half I capped everything out, and your only concern is whether you'll trigger the "OKAY YOU CAN FIGHT BOSS NOW" okay box as the otherwise immortal boss sits there and spams it's instant kill attack anytime you're anywhere near it. The videos show fast paced action, but that's not a thing at all, they're using fully upgraded speed to make the game actually look fun. By the time you've even upgraded your ship twice you're immune to all lesser enemies \(in fact getting hit by them heals you\) and the only thing you've got to worry about is whether this boss will trigger the ability for you to actually fight it for the 8 seconds it takes to kill it.. Been using this with an XBOX360 wired controller for some time now, and it works absolutely flawlessly.](#)

[A lot of configuration options and smart design make this program great for controlling your desktop/browser/other programs with a controller.](#)

[Two thumbs up & a big thanks to the devs.. Well advertised game, but the advertisement is essentially the entire game. It took 40 seconds to 2 minutes to beat each of 16 outcomes.. Been following the development of this game since Dark-1 presented the game on the globalgamejam few years ago, its really a different game since then in a positive way. I just bought it and have only 20 minutes in the game, but for now I think it is a really interesting concept - gameplay wise, awesome soundtrack \(they should sell as separate dlc/vost cuz its really good\), great art and animation. It's really hard, but challenging, it reminds me of super meat boy in that way.](#)

[You should definitely try it out!](#)

[\(I might update this review when I pump up the play time numbers \). The game doesn't even work.. Fun and easy to 100% Its a short and relaxing game where you have to get the blue circle onto the green platform and keep it there for a few seconds, it has nice Achievements, Trading Cards and also contains a Free DLC!!!. Super relaxing and easy to setup and play. Even my three year old enjoys it!](#)
